Reg Earns Hours	Other Earnings Hours
Days (Reg Earns Hours/8)	Days (Other Earnings Hours/8)
Plan Type	Plan Type
Retirement Registration #	Retirement Registration #

Instructions for Running the RGS Queries

Prompts for the RGS queries:
- Agency Code
- Pay Period Begin Date
- Pay Period End Date

For the Agency Code specified and the payperiod specified, the query will return RGS payments that were entered into time entry and paid, but will ignore the regular RGS payment for that specified pay period. Any RGS payment entries that overlap the Pay Period Begin Date or Pay Period End Date will be ignored in the query.
Example: Admin. Pay Period 21L has a Begin Date of 01/02/2003 and Pay Period End Date of 01/15/2003. The employee's paycheck has recorded an RGS transaction, which was submitted through time entry, with an Earnings Begin Date of 01/14/2003 and an Earning End Date of 01/17/2003. The RGS information will not be returned for Admin Pay Period 12L.

Instructions for Running the RGS Queries

Prompts for the RGO/EXT queries:
Agency Code
Pay Period End Date

For the agency code and payperiod specified, the query will return any RGO and/or EXT payment made.
