(Rev. 7/04)

TO THE COMPTROLLER OF THE STATE OF NEW YORK:

I apply for the refund of any excess contributions to my credit in the Annuity Savings Fund. I understand that such refund will result in a reduction in the annuity to which I would otherwise be entitled at the time of retirement.

I also understand that voluntary contributions may be withdrawn only once in any twelve month period.

NOTE: If you are now making voluntary contributions and wish to discontinue making them, a separate form (RS 5378) must be filed. This may be obtained from your payroll office.

SPECIAL TAX NOTICE REGARDING EXCESS REFUNDS FROM THE RETIREMENT SYSTEM

This notice contains important information you will need before you decide how to receive your excess refund from the New York State and Local Retirement Systems.

SUMMARY

A payment from the Retirement System that is eligible for "rollover" consists of a taxable portion and a non-taxable portion. The taxable portion can be taken in one of two ways. You may have all or any portion of your taxable payment either 1) PAID IN A 'DIRECT ROLLOVER' or 2) PAID TO YOU. A rollover is a payment of the taxable portion of your excess refund to your individual retirement arrangement (IRA) or to another qualified employer plan. This choice will affect the tax you owe.

If you choose a DIRECT ROLLOVER:

- ◆ Your refund will not be taxed in the current year and no income tax will be withheld.
- ◆ Your refund will be made directly to your IRA or, if you choose, to another employer plan that accepts your rollover.
- ◆ Your refund will be taxed later when you take it out of the IRA or the employer plan.

If you choose to have your Retirement System withdrawal PAID TO YOU:

- ◆ You will receive only 80% of the taxable portion of the refund because the Retirement System is required to withhold 20% of the taxable portion of the refund and send it to the IRS as income tax withholding to be credited against your taxes.
- ◆ Your payment will be taxed in the current year unless you roll it over. You may be able to use special tax rules that could reduce the tax you owe. However, if you receive the refund before age 59 1/2, you also may have to pay an additional 10% tax.
- ◆ You can roll over the taxable portion of your refund to your IRA or to another employer plan that accepts your rollover within 60 days of receiving the refund. The amount rolled over will not be taxed until you take it out of the IRA or the other employer plan.
- ◆ If you want to roll over 100% of the taxable portion of the refund to an IRA or another employer plan, you must find other money to replace the 20% that was withheld. If you roll over only the 80% that you received, you will be taxed on the 20% that was withheld and is not rolled over.

MORE INFORMATION

1. PAYMENTS THAT CAN AND CANNOT BE ROLLED OVER

Payments from the Retirement System may be "eligible rollover distributions." This means that they can be rolled over to an IRA or to another employer plan that accepts rollovers. The Retirement System will tell you what portion of your payment is an eligible rollover distribution. The following types of payments cannot be rolled over:

Non-taxable payments. In general only the "taxable portion" of your payment is an eligible rollover distribution. If you have made "after tax" employee contributions to the Retirement System, these contributions will be non-taxable when they are paid to you and they cannot be rolled over. (After-tax employee contributions generally are contributions you made from your own pay that were already taxed.)

2. DIRECT ROLLOVER

You can choose a direct rollover of all or any portion of your payment that is an "eligible rollover distribution" as described above, as long as it equals \$200 or more. In a direct rollover, the eligible rollover distribution is paid directly from the retirement system to an IRA or another employer plan that accepts rollovers. If you choose a direct rollover, you are not taxed on a payment until you later take it out of the IRA or the employer plan.

Direct Rollover to an IRA. You can open an IRA to receive the direct rollover. (The term "IRA", as used in this notice, includes individual retirement accounts and individual retirement annuities.) If you choose to have your payment made directly to an IRA, contact an IRA sponsor (usually a financial institution) to find out how to have your payment made in a direct rollover to an IRA at that institution. If you are unsure of how to invest your money, you can temporarily establish an IRA to receive the payment. However, in choosing an IRA you may wish to consider whether the IRA you choose will allow you to move all or a part of your payment to another IRA at a later date without penalties or other limitations. See IRS Publication 590, Individual Retirement Arrangements for more information on IRA's (including limits on how often you can roll over between IRAs).

Direct Rollover to a Plan. If you are employed by a new employer that has a plan and you want a direct rollover to that plan, ask the administrator of that plan whether it will accept your rollover. If your new employer's plan does not accept a rollover, you can choose a direct rollover to an IRA.

3. PAYMENT PAID TO YOU

If you have the payment made to you, it is subject to 20% income tax withholding. The payment is taxed in the year you receive it unless, within 60 days, you roll it over to an IRA or another plan that accepts rollovers. If you do not roll it over, special tax rules may apply.

INCOME TAX WITHHOLDING:

Mandatory Withholding. If any portion of the payment to you is an eligible rollover distribution of \$200 or more, the Retirement System is required by law to withhold 20% of that amount. This amount is sent to the IRS as income tax withholding. For example, if your eligible rollover distribution is \$10,000, only \$8,000 will be paid to you because the Retirement System must withhold \$2,000 as income tax. However, when you prepare your income tax return for the year, you will report the full \$10,000 as a payment from the Retirement System. You will report the \$2,000 as tax withheld and it will be credited against any income tax you owe for the year.

Sixty-Day Rollover Option. If you have an eligible rollover distribution paid to you, you can still decide to roll over all or part of it to an IRA or another employer plan that accepts rollovers. If you decide to roll over, you must make the rollover within 60 days after you receive the payment. The portion of your payment that is rolled over will not be taxed until you take it out of the IRA or the employer plan. You can roll over up to 100% of the eligible rollover distribution including an amount equal to the 20% that was withheld. If you choose to roll over 100%, you must find other money within the 60-day period to contribute to the IRA or the other employer plan to replace the 20% that was withheld. On the other hand, if you roll over only the 80% that you received, you will be taxed on the 20% that was withheld.

Example: Your eligible rollover distribution is \$10,000 and you choose to have it paid to you. You will receive \$8,000 and \$2,000 will be sent to the IRS as income withholding. Within 60 days after receiving the \$8,000, you may roll over the entire \$10,000 to an IRA or employer plan. To do this you roll over the \$8,000 you received from the Retirement System and you will have to find \$2,000 from other sources (your savings, a loan, etc.). In this case the entire \$10,000 is not taxed until you take it out of the IRA or employer plan. If you roll over the entire \$10,000, when you file your income tax return you may get a refund of the \$2,000 withheld.

If, on the other hand, you roll over the \$8,000, the \$2,000 you did not rollover is taxed in the year it was withheld. When you file your income tax return you may get a refund of part of the \$2,000 withheld. (However, any refund is likely to be larger if you roll over the entire \$10,000).

Additional 10% Tax If You Are Under Age 59 1/2. If you receive a payment before the age of 59 1/2 and you do not roll it over, then, in addition to the regular income tax, you may have to pay an extra tax equal to 10% of the taxable portion of the payment. The additional 10% tax does not apply to your payment if it is (1) paid to you because you separate from service with your employer during or after the year you reach age 59 1/2, (2) paid because you retire due to disability, or (3) used to pay certain medical expenses. See IRS Form 5329 for more information on the additional 10% tax.
